

## Roof Repairs

Contractors will begin repairs on the library's roof on Friday, August 31. The expected completion date is September 28.

The roof has been leaking for several years now and we've been getting by with temporary repairs. A full overhaul is now being undertaken in order to protect the contents of the library from water damage. Funds for the roof repairs come from the Library District capital funds.

Some parking spots will be unavailable during the repairs. No tar is being used, so there will not be an odor. Some dust may be present outside at the beginning of the project as debris is tossed into the dumpster. Although the workers will attempt to get the noisiest work out of the way before the library opens, patrons can expect there to be some noise up until 4:00 p.m. on weekdays. As always, patrons are welcome to use the drive-up book drop at the Adult Community Center which is available 24/7.

Thank you to our neighbors at Polar Systems and Windermere for temporarily providing parking to library staff during the construction.

If you have any questions or comments about the roof repairs, please contact Diane Satchwell at [dsatchwell@westlinnoregon.gov](mailto:dsatchwell@westlinnoregon.gov).
